Property Description

This home is one of the most unique properties that our office has ever listed. When you think of a 4064 square foot home on 24 acres, I bet you don't imagine that you would also be getting a 16' x 80' mobile home, 4 detached storage buildings that are equipped and ready for your carpentry or automotive hobbies, or over 50-year-old mature timber on about 20+ of the acreage that you are purchasing. Well, that is exactly what you would be getting with this property. ALL of that and even MORE!!!! The home is located 6 miles from Walmart on Walker Springs Road and has all of the feel of country living and is only 5 minutes from town. It's the best of both worlds, for sure!

The main property was built by the owner in 1975 and offers some of the most unique and beautiful features. The gorgeous porches welcome you to enjoy the beautiful pine-filled front yard that is perfect for enjoying a cup of coffee on cool fall mornings or a glass of tea on summer afternoons. This 4 bedroom, 2 bath and 2 half bath home has over 4064 square feet, a sunken living area with a wall that was finished with the backs of church pews (see photos). Absolutely beautiful! The kitchen has tons of storage and will be completely furnished with appliances, including a refrigerator! The laundry room is oversized and has plenty of room for storage. The bedrooms are large and are perfect for your growing family to make this your forever home. There is also a game room with 10' ceilings and the pool table in there stays as well!

Now for the outside! Do you have an automotive lover in your life? A carpenter, perhaps? Well, there are outbuildings specifically dedicated to each! And some tools will stay with the purchase, as well. There is also a woodshed that has plenty of wood that would keep your family warm for a couple of winters without you having to hit the woods. Now THAT is a win/win!

There is mature timber on the property. There is also a spring that runs across the back where it would be a fantastic lake site. With tons of hardwoods, its a natural habitat for an abundance of wildlife. If you have an avid hunter or game watcher, this is just one more added bonus!

The mobile home also stays on the property. It can be moved, used for a family member, mother-in-law suite, she-shed, man cave, or even for additional rental property. The choices are endless.

There honestly is so much for you to see on this property. You really need to schedule your appointment today.

For more information or to make your appointment, call Tommy Windham! You surely don't want this opportunity to pass you by!
